

CONFERENCING SPECIFICATIONS

AERO Conference Tables feature a pedestal base and angular sub-top allowing the table to remain light in scale while optimizing strength and wire management. The pedestal bases and tops are finished with CCN's beautifully selected and matched wood veneers while the sub-top is finished in our Mica Color Finishes to blend or contrast. Pedestal bases are supported by metal feet available in polished stainless steel, as well as, powder coat finishes. Voice, power, and data offer superior connectivity, and beautiful matching wood doors.

MEDIA SPECIFICATIONS

AERO Media Units are available with two credenza heights. The 36" buffet height is the perfect compliment to a conference table. The 20" credenza is ideal for use in public areas, or other stand alone situations. Media Units are available with optional bookcase ends providing ample storage. A teleconferencing camera shelf is also optional. Together they make a strong statement with clean lines and angular details.
