A passion for chairs

Where sitting began

Sitting has changed. As a hunter and gatherer, man knew many resting positions that he didn't have to learn. He walked and ran, sat or slept because of his genetic disposition. But man was not made to sit for hours at a time. Today working world has given sitting a whole new meaning. We no longer sit to rest, we now sit to perform our work. This places new and demanding requirements on sitting and Interstuhl is constantly developing solutions that encourage dynamic sitting. We help make seated work more pleasant and efficient. Each of these seating solutions is unique when seen on its own. Seen together, they create a spectrum of design options and possible uses to cater to almost every taste and every work application.

The value of comfortable sitting

This manual is mainly concerned with data, dimensions and prices, but also with the question of a chair's value more precisely; how much is a comfortable chair worth to you? A product's price is always a result of the effort that has been invested in the product. Our extensive experience enables us to get to the heart of the matter of seating, i.e. we understand the intricate details that makes a chair perform better.

The value of good design

Beautiful, appealing and tasteful. Good design in chairs is more than just pure aesthetics. It is an invitation to take a seat, to sit comfortably, whether working at a desk, sitting in meetings or lounges, the value of good design is plain to see in chairs from Interstuhl.

The value of skilled hands

Discerning people regret the fact that craftsmanship is no longer a lucrative existence. Interstuhl uses craftsmanship wherever machines come up against their limitations. Chairs that deserve the distinction of "good workmanship" in more ways than one are manufactured in the new division called "Interstuhl Manufactur".

Movement while sitting

Chairs from Interstuhl give their users an all-round experience of well-being. Because they keep the back and pelvis in motion. Because they can be quickly and easily adjusted to individual needs and momentary requirements. The chairs offer a great freedom of movement and make it easier to adopt a comfortable and healthy posture during work at any time. Seating solutions from Interstuhl thus follow the order of our modern times: they are no longer designed to be simply sat upon but to move as much as possible.

An example: Silver

You have probably picked up this price book to look up some data, dimensions or prices. In this respect, you could simply skip the next pages. But what would you be missing? An opportunity to experience an unusual range of chairs: Silver. The Silver range of chairs was made to illustrate what makes chairs from Interstuhl so unique. We hope you will find time to sit back and enjoy the next pages. Contrary to the opinion once expressed by Oscar Wilde; "Nowadays people know the price of everything – and the value of nothing"; Silver is true value, understood.

Stages of a success story

AirPad The synthesis of lightness - Two innovations combined to create a whole new seating sensation. AirPad has a completly new, transparent membrane – a significant development of the mesh backrest. The membrane makes AirPad seem almost to float. The Body-Float synchronous mechanism gives a unique and astonishing floating/seating experience. Sitting onto AirPad means floating gently into the chair, to a perfectly balanced seating position. Feeling at one with the chair and the surroundings, sitting effortlessly, with complete freedom of movement.

MOVY^{is3}: The end of class barriers - MOVY^{is3} stands for the kind of sitting comfort you only enjoy in first class. Like every other interstuhl chair, its design, function and ergonomics are all geared to providing a really good sitting experience. So this office swivel chair and swivel armchair raise synchronous mechanism to a truly premium level – this is what we call the Body-Float-Effect. The feeling is one of weightlessness and floating. MOVYis3 does not compromise on comfort either, whether it's the swivel chair with mesh back or the swivel armchair with comfort upholstery. The design: light, dynamic, pure. MOVYis3 is a chair for today.

Terms of sale and delivery

1. General

Our terms of sale and delivery apply for all deliveries and services. Other terms, e.g. the terms of our customers, only become an integral part of the contract if they have been expressly agreed in writing. Statutory regulations apply in the event of conflicts. If the customer is a merchant or legal entity under public law or a special fund under public law, our terms of sale and delivery apply for all future transactions.

2. Content of the contract

2.1 All information included in catalogs, price lists or order proposals are nonbinding. Only those terms agreed for the concrete order are binding. Terms for an order only become binding after we have accepted the customer's order (order confirmation). Proposals for an order which we have made are only binding after an order has been placed and confirmed.

2.2. Special products are articles that are not manufactured as standard by us or which are not listed in price lists. This also relates to fabrics and colors.2.3. We are entitled to change deliveries, services and designs for technical reasons whenever we believe this is reconcilable with the purpose of the order.

3. Cancellation/withdrawal/return of goods

The cancellation of a concluded contract must be carried out expressly and unanimously and cannot be simply demanded because subsequent precautionary settlements are reached for this case. If a contract is unilaterally cancelled, the customer is obliged to reimburse all costs incurred to date and through the cancellation of the contract, even if this has not been expressly agreed in the special contract on the cancellation. No cancellation is accepted for special products.

4. Prices

4.1. Our prices for merchants, legal entities under public law and special funds under public law are quoted as gross prices minus discounts, plus, where applicable, the statutory VAT (if mandatory), excluding packaging, transport, installation and insurance. If there are more than 4 months between the conclusion of contract and the agreed delivery date, we are entitled to invoice the prices valid at the date of delivery.

4.2. For merchants and in the case of successive deliveries, we will invoice the goods at the price in force at time of delivery, unless terms are agreed otherwise.

5. Transport

Export delivery conditions are Ex works.

6. Transfer of risk

6.1. We bear the risk of accidental loss or damage to the goods up until these are ready for dispatch and the customer has been informed of this.

6.2. If the dispatch is postponed by reasons for which we cannot be held liable or responsible, we will store the goods at the customer's risk and the customer undertakes to insure the goods. If the dispatch is delayed at the customer's request we are entitled to charge storage costs at normal carrier rates for every month, starting with the notification date of the readiness for dispatch.
6.3. Claims on whatever legal grounds

6.3. Claims on whatever legal grounds that are based on damage to the goods during delivery, can only be enforced, irrespective of all obligations of the recipient under transport law, on condition that we are immediately informed of the nature and extent of the damage and its possible cause by the customer.

7. Delivery

7.1. If a date or period, i.e., a certain calendar week, is specified in or can be derived from the contractual documents for deliveries or services, this only indicates the due date of the delivery. The customer must ensure that the delivery can be carried out at normal business hours. If such delivery dates or periods are not met, the customer is entitled to grant us an appropriate period of grace and to terminate the contract and claim compensation for damage in accordance with Para. 11 on expiry of this period of grace. This attribute must be expressly and unmistakably agreed for periods or dates that may not be exceeded under any circumstances (fixed dates).

7.2. If we are prevented from delivery or rendering the service due to acts of God, industrial disputes, strikes, lockouts as well as war, catastrophes and/or official interventions and instructions, we are entitled to either terminate the contract or to render the agreed service as quickly as possible after the hindrance has been eliminated. Compensation for damage is excluded.

7.3. It is the responsibility of the dealer to carry the goods to their place of use and to unpack and assemble them. If, however, we are to deliver the goods to the final user, we are to charge a sum for the additional work according to the labour charged.

7.4. Call orders are limited to a maximum of 1 year; all deliveries must be accepted within this period; the minimum call period is 1 month.

8. Payments

8.1. Individual terms apply.

8.2. If payment is not made in due time, we are entitled, without prejudice to further claims, to charge our damage to the amount of our credit costs, though at least 5% above the relevant base rate of the European Central Bank. We will be exempt from the rendering of further payments/deliveries in advance.

9. Reservation of ownership

9.1. Our deliveries remain under a reservation of ownership until payment in full of the purchase price and settlement of all debts due to us, including interest and costs. The customer is only entitled to sell the goods within the context of normal business. Any encroachment on our rights, in particular through a pledging of the goods, is prohibited.

9.2. If the reserved goods are processed or reworked they remain our property in all stages of production. If the goods are processed, combined or mixed with other items, we become co-owners of the new objects or the mixed goods at the ratio of the value of the reserved goods to that of the finished items. 9.3. If the customer is co-owner of the processed, combined or mixed items, they transfer their ownership of this object, which is subject to our reservation of ownership, to us in advance with all resulting claims against third parties and all ancillary rights up to the relevant amount of the reserved goods. The customer must co-operate in all reasonable measures that ensure a clear determination of such goods.

9.4. The customer must, on request, immediately inform us of the accounts receivable that have been assigned to us with all the information necessary for their collection, and to refrain from any collection of the accounts receivable that have been assigned to us at our request. We herewith accept the assignment of the co-ownership rights/claims but still reserve the right to re-assign the claim. The customer herewith assigns any claims against third parties or insurance companies for compensation due to loss, damage or destruction of the goods to us. He agrees to send us a copy of the notice of claim and the insurance company's letter of trust. We are entitled to announce the assignment. 9.5. If the customer defaults in payment

or fails to discharge any other duties from the reservation of ownership, we are entitled to terminate the contract and demand the return of the goods if an appropriate period of grace which we have set for the customer passes to no avail; the statutory regulations on the dispensability of the appointment of a date remain unaffected. The customer must surrender the goods.

Terms of sales and delivery

9.6. If the value of the securities furnished for us exceeds our total claims from the business relationship by more than 20%, we must release or re-assign the appropriate security at the customer's request.

9.7. The customer must inform us of third party foreclosure measures against the reserved goods or any resulting claims immediately and send us the documents necessary for an intervention.

9.8. If the goods are brought to a place outside the local jurisdiction of German courts and the purchase price has not been paid, the customer must place the purchaser under an obligation to ensure that we remain owners of the delivered goods until their payment or a corresponding security interest is substantiated for us. The purchaser must be obliged to inform us of this.

10. Defects of quality

10.1. The customer must ensure unhindered access to the place of delivery, must check the goods immediately on receipt and immediately inform us in writing of any complaints due to imperfections or incorrect delivery. If the delivered goods are faulty we are entitled to either remedy the defect or replace the goods at our own discretion. If the defect is successfully remedied or the replacement delivery carried out, all of the customer's claims are deemed to be settled through the reimbursement of his incurred costs. A reimbursement of costs is excluded if the expenses rise because goods have been brought to a different location after our delivery, unless this corresponds to the correct use of the goods. An imperfection is not given in the event of technological deviations in size and shape, deviations in the film colour, textile colour or colour and grain of the genuine wood veneer or for unsubstantial deviations.

10.2. If we are not prepared or are unable to remedy the defect or replace the delivery or if this is delayed beyond a reasonable period through our own fault or if the remedy of the defect has finally failed, the customer is entitled at his own choice to either terminate the contract or demand an reduction of the purchase price (abatement).

10.3. The customer must allow us to inspect the faulty goods.

10.4. Our liability for defects of quality expires 2 years after the delivery.
10.5. In the case of deliveries according to drawings or other data provided by the customer we will follow these instructions wherever they are technically feasible. We will not check whether they are practical without a separate order. The customer assumes the liability for ensuring that no third party rights are violated by the drawings he specifies.

10.6. Statutory rights of recourse for the customer against us only exist inasmuch

as the customer has not reached any agreements with his buyers that go beyond the statutory warranty claims. Paragraph 10.1, sentence 4 also applies accordingly for the extent of the rights of recourse.

11. Other claims, liability

11.1. Unless otherwise specified below, all other and further claims on the part of the customer against us are excluded. This is particularly true of claims for compensation due to a breach of duties from the contractual obligation and unauthorised actions.

Thus, we cannot be held liable for damages that are not suffered to the delivered goods themselves. Above all, we are not liable for lost profits or other pecuniary losses suffered by the customer.

11.2. The foregoing limitations of liability do not apply for intent, gross negligence on the part of our legal representatives or executive staff as well as the culpable breach of essential contractual obligations. In the event of the culpable breach of essential contractual obligations we are only liable for damages that are typical for the contract and which could have been reasonably foreseen – apart from cases of intent or gross negligence on the part of our legal representatives or executive staff.

11.3. Nor does the limitation of liability apply in cases where a liability exists in accordance with the product liability act for personal injury or material damage to privately used objects due to faults in the delivered goods.

Nor does it apply in the case of injuries to life, body or health and for the absence of warranted characteristics, if and inasmuch as the purpose of the warranty was to protect the customer against damages that were not incurred on the delivered goods themselves.

11.4. Inasmuch as our liability is excluded or limited, this also applies for the personal liability of our employees, staff, workers, legal representatives and vicarious agents.

11.5. The statutory regulations on the onus of proof are not affected by these provisions.

12. Documents and samples

12.1. We reserve ownership and copyright on all estimates of costs, drawings, illustrations, sketches and other documents and samples; the documents must be returned to us on request and may not be disclosed to third parties, not even as a copy.

12.2. Unless otherwise agreed, samples are to be returned to us within one month, or purchased.

Samples of special products must be purchased by the customer and are non-returnable.

13. Place of performance, jurisdiction, applicable law

13.1. Unless otherwise specified in the confirmation of order, our place of business is Germany.

13.2. Germany is the place of jurisdiction for all legal disputes, including those within the scope of summary procedures on bills of exchange or cheques, if the customer is a merchant, legal entity under public law or a special fund under public law.

We are also entitled to take legal action at the customer's place of business.

14. Data protection

We store and process personal and company-related data of our customers in consideration of the regulations of the Germany Data Protection Act.

15. Technical improvements

We reserve the right to make changes for the purpose of technical progress.

Last revised: 01 2014

Care instructions

Care instructions for the cover fabrics:

Stains are best removed immediately after they occur. Brush covers regularly with a soft brush or vacuum with an upholstery nozzle. Wipe off stubborn dirt with a piece leather.

For care of linen or silk: consult a cleaning company.

Removing stains:

Stain removal should always be carried out by an upholstery cleaner. If you want to try yourself, proceed as follows: Preliminary test: remove any dust before performing the test. Check the colorfastness and any changes in the surface of the upholstery cover at a concealed point by rubbing with a soft white cloth soaked in the cleaning agent or stain remover. This check should also be carried out on naturally colored fabrics. Dab off moist stains with an absorbent cloth or paper. Treat residues with diluted carpet or upholstery shampoo. Never apply cleaning agents directly to the cover. Apply the agent to a white cloth. Use this moist cloth to remove the stain, starting from the edge and rubbing towards the middle. The surface of the cover may change due to rubbing, so proceed with care! Dry stains can be treated like the residues of wet stains. If insoluble grease stains appear or remain, dab off with a white cloth soaked in petroleum.

Care instructions for furniture leather:

Important: Do not treat with solvents (stain remover, turpentine, petroleum spirit), shoe cream or wax. Aniline leather must be protected against sunshine or direct light.

Preliminary test:

Check the color behavior of the furniture leather at a concealed point by rubbing with a soft white cloth moistened with the appropriate cleaning agent. The agent is unsuitable if the cloth changes color. Pay attention to the instructions provided by the manufacturer of the cleaning agent.

Exclusive + Premium leather Maintenance cleaning:

Dust off regularly with a soft cloth. Treat from time to time with a special conditioner (colorless furniture leather spray).

Avoid rubbing too strongly. **Exclusive + Premium leather Intermediate cleaning:**

Dust: remove with a soft cloth. More stubborn dirt: clean more stubborn dirt with neutral soap dissolved in lukewarm water. Moisten a soft cloth with this solutionand wipe large area.

Nappa leather Maintenance cleaning:

Dust off regularly with a soft cloth. Treat from time to time with a special conditioner (leather foam) according to the instructions for use. Avoid rubbing too strongly.

Nappa leather Intermediate cleaning:

Dust: remove with a soft cloth. More stubborn dirt: Moisten and wring out a cloth or washleather and wipe over the surface. Dry with a soft cloth. When dry, treat with a special conditioner (leather milk or foam).

Care instructions for plastic surfaces:

Use a normal plastics cleaner.

Care instructions for wooden surfaces:

Important: do not use any furniture care products! This normally contains silicon which will not allow any repairs later on if the surface becomes damaged.

Dust and light dirt can be wiped off with a soft dry cloth. Wipe off stubborn dirt with a lightly moistened (never wet) cloth or leather and then rub dry immediately with a soft dry cloth.

General leather care remark:

Leather is a product provided by nature. Every leather is unique – the same as the finger print of a human being. Each skin has its own properties.

One of the characteristics of leather is that folds may occur. Folds, particularly in the areas of tight radiuses and quilting seams, give leather its characteristic apperance.

Leather stretches while used, for example through sitting. After continuous and sustained use leather will not get back to its original form, as fabric does, and so the tension is reduced. The permanently stretched area emphasizes the typical fold characteristics of leather.

Leather dyes irregularly and therefore differences in colour may occur. Our employees try their best to keep these colour differences as small as possible.

General remarks

Specified measurements

Measurements are determined according to DIN EN 1335. The specified measurements are approximate values only.

Color differences

Color differences in fabrics or finishes may occur due to the nature of production; and in the case of leather and wood due to the natural properties of the material. Slight differences, particularly in subsequent deliveries, are to be expected.

Placement of Purchase Orders

Minimum order information: always state the basic model number and upholstery number. If the seat and back are to be supplied in different covers, specify the seat cover first and then the back cover.

Example: A152 / 4102 - 4101

Options: if you require an option deviating from the standard (the standard version is identified by black dots), please state the relevant order numbers after the minimum order information. Option example: O 152 / 4102 / 2324 / 703

Castors and glides

All chairs/armchairs are equipped standard with castors for use on carpets (in accordance with DIN EN 12529). If using chairs on hard surfaces, the order must specify the "soft castors" or "felt glides" for the hard floor option. We are unable to accept any responsibility for the use of incorrect castors or glides.

COM/COL (minimum order quantity 10 pieces per model and order)

If customer fabrics or customer leather is used, a check must be issued for the upholstery materials before the order is accepted. We assume no liability for the

quality of the materials supplied to us and their processing for any later problems.

We always assume a minimum width of 55" for all fabrics supplied by customers. Always send us processing instructions (in particular the direction of upholstering as well as front and reverse face). We will be pleased to send you an appropriate form. The order will only be entered and confirmed after payment is received and the suitability for use of the fabric materials is confirmed.

Return and disposal guarantee

interstuhl guarantees that all its products may be returned and that we will dispose of them in an environmentally friendly manner. Return transport costs must be paid by the customer.

Interstuhl Limited Lifetime Warranty for North America

Interstuhl warrants to the original purchaser that the products described in the List Price, sold after January 1st, 2014, will be free from defects in materials and workmanship commencing with the date of initial purchase and continuing for as long as the original owner uses these products.

The following exceptions apply to all products:

- 1.) The Interstuhl warranty applies to a single shift use and maximum weight limit of 250 lbs.
- 2.) Damage caused by improper treatment of the product, including exposure to unusual environmental conditions (extreme climates, acids, moisture, etc.)

Interstuhl will repair, or at its option, replace, defective merchandise, free of charge, which, when used normally and pursuant to Interstuhl's published instructions, and applicable assembling and/or instruction information, prove to be defective within the period stated.

This warranty does not apply to damage resulting from accident, alteration, transport, misuse, or damage from normal wear and tear such as dents, nicks, scratches, fading and improper maintenance.

Natural variations present in materials such as wood, aluminum and leather surfaces are not considered defects, and Interstuhl does not warrant the matching of colors, grains, textures or colorfastness of these materials.

Textiles, leathers, and powder coat finishes are not warranted against fading, wear, scratching or other marking.

Interstuhl makes no warranty to purchasers who aquire products for personal, family or household purposes, or to purchasers aquiring the product other than directly from Interstuhl, its authorized dealers, or others who are specifically authorized by Interstuhl to sell such products.

Interstuhl's liability with respect to its products shall not exceed what is expressly set forth above irrespective of the theory upon which a claim might be based, including negligence. Under no circumstance shall Interstuhl be liable for incidental or consequential damages. Original product label must be attached to the product in question.

The warranty period is not interrupted or prolonged by the performance of a service under the terms of the warranty. There are no other warranties except as expressly set forth above, either express or implied, including any warranty of

design, merchantability or fitness for any purpose.

Any modifications to our products made by the purchaser, purchaser's employee or agents, voids this warranty.

This warranty is the customer's sole remedy for product defects. No other expressed or implied warranty is provided. Interstuhl is not responsible for any consequential, economic or incidental damages arising from any product defect.

This warranty supersedes all previously printed Interstuhl warranties.

Interstuhl

This warranty provides limits on the following parts:

Warranty limits	
10 Years	Base, Visitor frames
5 Years	Mechanism
3 Years	Trim, Fabric, Foam, Arm Pads, Veneer, Textiles, Powder Coat finishes, Leather
2 Years	Surface Finishes
1 Year	Non Standard Product/Special Designs
Not Covered	Customer Supplied Materials (Fabric, Leather)

Terms of Delivery

Program

Interstuhl offers an optional shipping program for all the products listed in the current price list "Special Edition for USA" for the Continental United States. Delivery is via common carrier. All shipping costs are prepaid by Interstuhl and added to the original invoice as a separate line item at the time of shipment. This program enables our customer to determine shipping charges up-front and provides the customer with one invoice for both Interstuhl products and shipping charges.

For air freight and shipment outside the Continental US, please contact Interstuhl for further information.

Products and parts are shipped FOB Interstuhl Factory Germany (Tieringen). Title of goods changes when products/parts leave Interstuhl's dock, and any freight damage and all freight claims are the responsibility of the customer to report to the carrier promptly upon receipt of the goods.

Charges

Shipping charges are for normal delivery only and do not include inside delivery, installation, uncartoning or removal of cartons. Additional charges will be determined on a case by case base. Should additional charges be incurred by Interstuhl due to delivery issues (nondock, re-delivery, etc.) after initial billing, the customer may be liable for those additional charges. Please indicate special delivery instructions with your order.

How to use

Unless otherwise noted on your order, Interstuhl will ship the goods with the conditions of this program and will select the most appropriate carrier and routing on all shipments.

Interstuhl reserves the right to change or discontinue this program at anytime.

The Continental US has been divided into two zones. Using the map below, determine the territory of the products location. Shipping charges are calculated as a percentage of the product list price based on the following scale:

Zone 1

6% freight charge, Minimum Charge per order \$150 **Zone 2** 7% freight charge, Minimum Charge per order \$150

Zone 2

Arizona California Colorado Idaho Kansas Louisiana Montana Nebraska Nevada New Mexico North Dakota Oklahoma Oregon South Dakota Texas Utah Washington Wyoming

Alahama Arkansas Connecticut Delaware Florida Georgia Illinois Indiana Iowa Kentucky Maine Maryland Massachusetts Michigan Minnesota Mississippi Missouri New Hampshire New Jersey New York North Carolina Ohio Pennsylvania Rhode Island South Carolina Tennessee West Virginia Wisconsin Vermont
